

# Domotex stand designs reach new heights!

As many of you already know, the annual Domotex trade fair took place in Hannover in January. As you can see from the examples below, the effort and creativity put into building attractive, welcoming stands was higher than ever!

**A.** The 'egg' self-service information unit by Solid floor was a stylish way of providing product information on screen, which could be easily backed up by real wood samples.

**B.** Amorim welcomed visitors with refreshments and comfortable, café-style seating.

**C.** Baltic Wood's tree silhouette shielded meeting tables from the central aisle and gave visitors a sense of privacy.

**D.** Coconut Wall Deco manufacturer Enito used powerful images to draw attention to the environmental damage caused by illegal logging.

**E.** Chinese manufacturer Ua, proposed this checker board of rough-hewn pine squares as an alternative kind of wall décor.

**F.** Bimbo's simple but highly impressive display consisted of 3.5 metre high pillars, each made using a single plank of wood.
