FLOORS – A UNIQUE COMBINATION OF THE MODERN AND THE CLASSIC

The Melody Collection is a collection of floors designed for active and passion-driven individuals who explore the world and choose what is best for them. The collection combines modern trends with classical designs, thus lending a special character to every interior and décor. It serves as an inspiration for those who are looking for their own style or wish to display their potential.

The modern and rich collection of three-layer wooden floors in the 1-row plank (Premium and Slim) and 3-row slat patterns is a real symphony of colours and finishes. The noble wood layer has been enhanced with matt and semi-matt varnish, coloured stains and oils, and thanks to the brushing and bevelling processes some patterns took on peculiar features and character.

The adhesive-free 5G and 2G joints make the floor assembly quick and clean. Many of the models are fit for installation over underfloor heating.

NOTE:
Baltic Wood S.A. reserves the right to change the technical parameters of the products on offer as well as to discontinue them.

Baltic Wood floors are manufactured only from natural wood, and that is why the shade, occurrence of knots, ring pattern and grain structures of particular elements – boards, slats etc. – can differ from one another as well as in relation to the photos included in all Baltic Wood marketing materials. The natural variation can be noticed when comparing the final product with the samples presented at the exposition. The wood variety is a natural feature of this noble raw material, determining its beauty and uniqueness.
